EvenFlow Air Circulating Technology™ consists of independent ventilation for each compartment, providing even distribution of cold air flow and allows for uniform and precise temperature control ensuring better wine preservation.

EvenFlow Air Circulating Technology™ moves air through the compartment around the sides rather than back to front, creating an air curtain when the door is opened, keeping cold air from escaping and saving energy.

Concealed side-mounted evaporator design allows for a deeper interior than most cabinet depth, built-in refrigerators.

- Triple-paned, bronzed glass door guarantees maximum protection from harmful UV light rays and helps maintain consistent interior preservation temperature.
- Can easily be combined and configured with other Hestan Refrigerator or Freezer models to fit your kitchen needs.
- The FreshSelect™ feature (wine refrigerator only) allows you to transform your bottom drawer into three independent electronically controlled cooling zones for maximum flexibility:
  - Classic refrigerator zone: From 34°F to 65°F, the recommended pre-set temperature is 42°F.
  - Extend fresh refrigerator zone preserves fresh food longer. From 28°F to 36°F, the recommended pre-set temperature is 32°F.
  - Freezer zone: From -11°F to +9°F, the recommended pre-set temperature is -1°F.
- Soft-close mechanisms on every oak wine rack reduce vibrations commonly harmful to wine.
- Heavy duty and elegant stainless steel interior liner.
- Multi-LED light array (top and side interior) provides brilliant illumination to the entire interior.
- Robust and unique hinge system for smooth door opening and self-closing. Hinge opens within itself, so side cabinetry is not compromised.
- Marquise™ accented door handle with commercial grade end caps.
- Capacities:
  - Wine Column: Dual Zone - 36 bottles per zone, total of 72 bottles
  - Wine / Refrigerator: Dual Zone - Upper Zone Capacity of 36, Lower Zone Capacity of 18 - total of 54 bottles

Options & Accessories
- Available in Twelve (12) Hestan signature color finishes
- Overlay available
- Wine display kit available
## INSTALLATION CUT-OUT FEATURES -  
### 24” WINE COLUMN AND 24” REFRIGERATOR WITH WINE

#### ELECTRICAL REQUIREMENTS:
- 121V, 60Hz, 15 amps
